

Shanghai New International Expo Center, N1-N4

- N1 Medical Materials & Core Components**
- Metal materials and their components
 - Ceramics, biomaterials, glass, and othmaterials and related components.
 - Ultra-precision laser processing, machine tools and additive manufacturing
 - Orthopedic and Dental implant Processing Zone

Advanced Active Device Tech Expo ADTE

- Power supplies, Batteries, Connectors, Cables, Switches
- Biosensors, Physical sensors, Motors, Valves, Robotic arms
- Pumps, Thermal management modules, Human - computer interaction kits Module manufactur- ing Prototype and mass manufacturing
- Optical Imaging and Diagnosis, CMOS, Ultrasonic Transducers, Detectors, Lasers, Endoscopic Lenses Optical Filters
- Main control chips, C omunication interfaces and storage solutions, Circuit boards Development tools AI algorithms
- Microfluidic systems, Precision structural components, Biocompatible material Supporting consumables

- N2 Medical Materials & Core Components**
- Pipe fittings and extrusion
 - Medical rubber and plastic materials and their components
 - IVD Reagents, Filtration, Intravenous Injection, and Laboratories
 - Pharmaceutical Delivery Systems, Dressing Materials and Formulation Processing
 - Bonding agents, bonding products

- N3 Medical Manufacturing Service & Equipment**
- Surface treatment
 - Plastic film molding services and equipment
 - Medical Automation, Drive Control, Robotics, Smart Factory
 - Pipe fittings and extrusion Equipment
 - OEM/ODM Contract Manufacturing Services

- N4 Medical Manufacturing Service & Equipment**
- Integrated Service Area
 - Medical Packaging, Sterilization, Labeling, Clean Choking
 - Exhibition of testing, metrology, inspection and calibration equipment and supplies
 - R&D and design, software services, consulting services
 - Only New Zone

Exhibit Forms

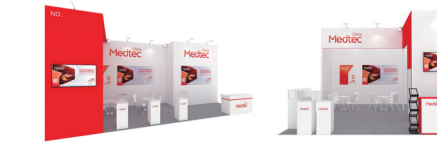

- Shell Plus**
Facilities per stand 9m²
- Fascia board (with English and Chinese company name and stand number)
 - 1 reception table
 - 1 round table
 - 3 chairs
 - 1 glass cabinet
 - 1 power socket (500W), 3 spotlights
 - 1 dustbin and carpet

- Raw Space**
Only the space for the booth will be provided for your own booth which needs prior inspection and approval.

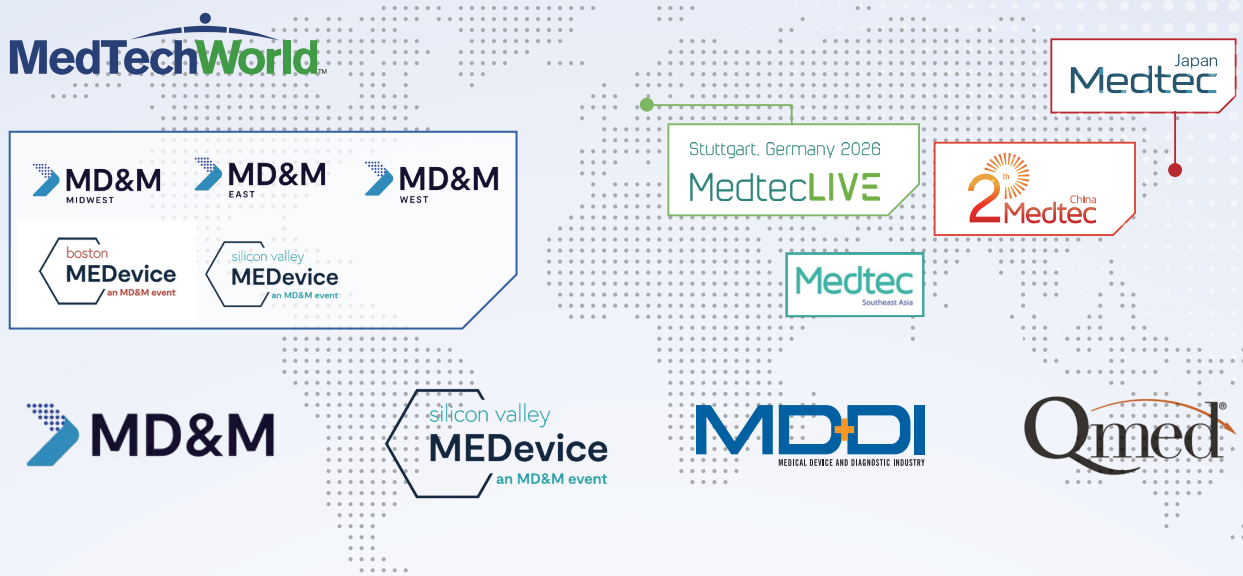

- Conference Sponsor**
Join as a sponsor of conferences meeting your target customers onsite, any interests please contact us, you can find contact on the last page.

- Exhibition Sponsor**
Participate as an Exhibition sponsor contains online and offline promoting solutions, any interests please contact us, you can find contact on the last page.

- Better stand**
Launched by Informa, this eco-friendly booth made entirely by recycle materials. Besides, we sell both the booth and design, with complete facilities, you can enjoy a fully furnished booth without worry about construction and decoration.

Exhibition Highlights

- Now at the Shanghai New International Expo Center, offering larger exhibition areas and closer access to key local industrial hubs
- Medtec Official Assistant + [Medical Smart Manufacturing] Mini Program + [Online Showroom] + Official Website provide exhibitors and attendees with year-round visibility and interaction
- The ADTE exhibition is expanded to meet growing demand for AI-driven solutions and digital transformation in medical technology.
- Exclusive "Emerging Forces Zone" and Brain-Computer Interface Integrated Exhibition Area

Medical Smart Manufacturing Mini Program

en.medteccn.com

Since its launch in 2004, Medtec China has held 19 successful editions and has become a key event in the global Medtec exhibition series, which spans 4 countries and 8 cities worldwide. Today, the Shanghai-based exhibition reaches major medical device hubs in the Yangtze River Delta, Pearl River Delta, and Bohai Rim, as well as across Asia, connecting companies involved in medical device R&D and manufacturing. The 2026 exhibition will feature two main sectors: Medical Materials & Components and Medical Manufacturing Services & Equipment, covering 17 categories. It offers end-to-end solutions, including raw materials, precision components, electro-optical assemblies, contract manufacturing, processing technologies, manufacturing equipment, packaging and inspection services, and consulting. Alongside the main exhibition, the ADTE Advanced Active Device Tech EXPO and the Emerging Forces Zone will showcase the latest innovations in the field.

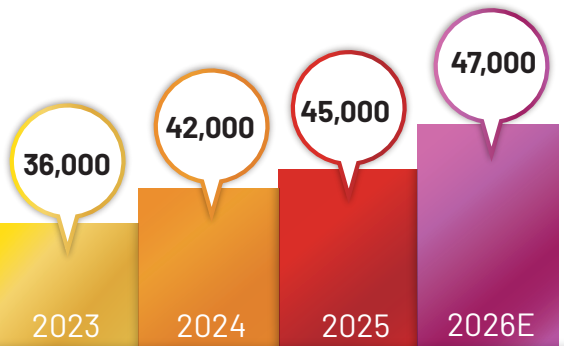

For exhibitors, Medtec provides a targeted platform to generate leads, boost growth, elevate brand presence, and launch cutting-edge technologies. For attendees, it's a one-stop destination to explore diverse R&D and design solutions, while discovering cost-effective, efficiency-boosting manufacturing options. Running alongside the exhibition, the Medtec Medical Device Supply Chain Ecosystem Summit brings together upstream and downstream players for in-depth discussions on technology trends, regulatory updates, industry insights, business matchmaking, and innovation inspiration.

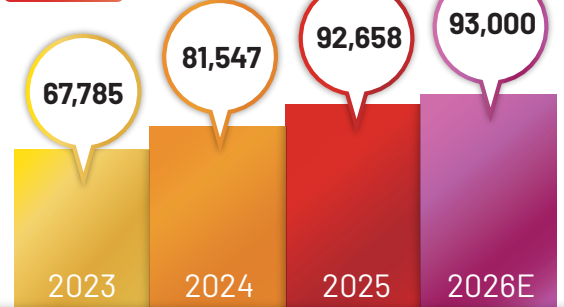

2026 Medtec will RELOCATE to SNIEC N1-N4

Analysis

■ Why Exhibit

Exhibitor Comments

Amphenol PCD (Shenzhen) Co., Ltd.
We are delighted to have participated in the Medtec medical exhibition this time. Previously, we have attended this exhibition every year. During this exhibition, I could sense the meticulous preparation by the organizers, and the venue gathered numerous clients, peers, and supplier partners. The key takeaway from this exhibition was the on-site exchanges with many potential clients and suppliers, which proved highly rewarding.

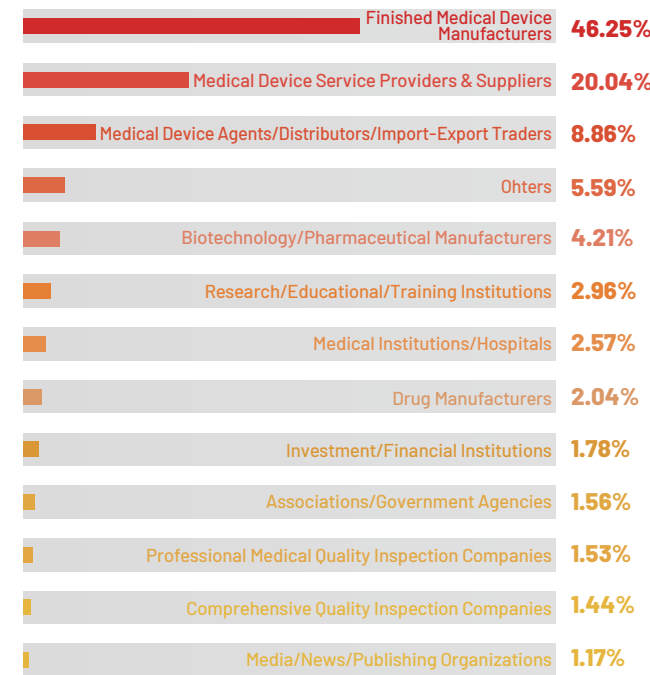

AIMIC
The foot traffic at the exhibition over these two days has been substantial, and the visitors we interacted with were quite professional. Additionally, we noticed a significant increase in overseas clients this year, with partners from Russia, South Korea, Japan, the United States, and other countries engaging in discussions with us.

TekniPlex Healthcare
We have been consistent exhibitors at Medtec, and this year, we felt that Medtec's scale has been continuously expanding, with a large influx of visitors. Moreover, we observed that the organization and operation of the entire exhibition have improved year by year, so we are delighted to continue participating in Medtec.

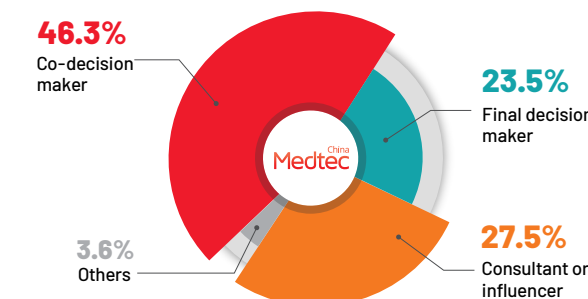

Shenzhen Innomax Medical Technology, Ltd
Medtec is a highly professional exhibition. We have collaborated with Medtec for many years and participate every year. This year, we felt that the atmosphere was very vibrant, with a wide variety of exhibits and a gathering of numerous domestic and international exhibitors. We also encountered many clients, such as those from Saudi Arabia and Singapore. We are grateful to Medtec for bringing us a wealth of customer resources, and we will continue to exhibit next year.

Medtec Global Medical
Supply Chain Summit

In concurrent with Medtec, this event focuses on the full lifecycle of medical device R&D, design, manufacturing, and commercialization, it fosters collaboration and innovation across the supply chain. Simultaneously, we will delve into the development trajectories of innovative medical devices and active medical devices, explore the challenges and opportunities encountered by medical device companies in their global expansion, and assist enterprises in achieving new breakthroughs. This summit will run concurrently at the exhibition venue for three days.

■ Concurrent Activities

Manufacturing Process

- Precision Machining Equipment and Technology Forum
- Plastic Molding Technology in Medical Device Manufacturing Forum
- Seminar of Advanced Technology of Medical Bonding and Welding
- The 7th Session of Pack & Ster Hub
- The 6th Forum for High-end Digital Manufacturing Technology for Medical Devices

Consumer Medical

- Medical Cosmetology Forum—UOR Innovation Technologies
- Medical Cosmetology Forum—Research and Clinical Application of New Materials
- Forum on Innovation and Practice in Rehabilitation Medical Devices

Advanced Active Medical Technologies

- The 9th IIMD China Summit—Implantable and Interventional Medical Device—New Technologies, New Applications, New Opportunities
- Active Medical Equipment Core Components and Technology Forum
- 2025 Life Support Equipment Manufacturing Technology and Material Application Development Forum
- Medical Device Components Innovation and Development Forum

Regulation & Quality

- Quality Focus - Medical Device Life Cycle Risk Management
- The 6th Edition of Regulatory Lecture: Practice for Product Compliance and Market Launch
- The 3rd Medical Device Industry Chain Quality and Safety Innovation Development Forum

Material Innovation & Application

- Boosters for the Birth of Medical Devices-Innovative Medical Materials/Accessories
- 3D Printing Materials and Technologies for Medical Device Applications
- Forum on Technology Development of New Type Medical Dressings

Market & Purchase

- The 9th Market Report Track of Medical Device Industry
- Conference on Supporting Services for Medical Device Companies Overseas Expansion
- Other Supporting Activities

R&D

- The 2nd Medical Device R&D Innovation Forum
- AI+Optics: Future Medical New Technologies
- Overseas Advanced Medical Manufacturing Technology
- The 8th Conference of Medical Device Design

Other Supporting Activities

- 2025 Medtec Official Opening
- X-ray New Era, Sterilization New Epoch - China's Medical Device X-ray Sterilization Technology Debut Ceremony
- INEOS Styrolution Conference Room
